

# Taking Our Careers to the Next Level

David Barrett

“... companies are facing a major leadership crisis. More than 10,000 baby boomers are retiring every day, and when talented senior leaders head for the door, they take decades of valuable experience with them.

A recent survey predicted a 30% drop in the number of appropriately aged managers available for leadership roles between 2013 and 2023.

To make matters worse, professionals considered emerging leaders account for only 8% to 10% of the current talent pool.”
